ABOUT US

AT EMPIRE WELDING, WE PRIDE OURSELVES ON BEING A MID-TIER FABRICATION AND WELDING SERVICE PROVIDER AND BELIEVE IN CAPITALISING ON THE COMPETITIVE EDGE THIS GIVES US

Empire Welding proudly stands as a locally owned and operated mid-tier fabrication and welding service provider, capitalising on our competitive edge to deliver unparalleled excellence. With our workshop situated in Perth, we have been setting industry standards since our inception. Our reputation for commitment to performance, safety, and quality precedes us, as does our ability to handle projects of any complexity with precision and timeliness.

We offer comprehensive project management, specialised maintenance, and off-site fabrication and repairs tailored to the oil and gas, mining and civil construction sectors. Our on-site fabrication services are complemented by dedicated support, ensuring that every project receives the attention it deserves. Moreover, our competitive pricing not only attracts top talent but also allows us to maintain quality expectations while meeting client needs effectively.

From field services to welding procedures and structural and piping fabrication, Empire Welding covers it all, serving the oil and gas, minerals, and civil sectors. Our commitment to delivering high-quality results is unwavering, reflected in every custom fabrication and welding project we undertake. When you require the expertise of an experienced welder in Perth, look no further than Empire Welding.

- Extensive on-site capacity
- Commitment to the environment
- Understanding of the social impacts of business
- Strong connection to community
- Commitment to Zero Harm
- Working towards accreditation

OUR SERVICES

PROVIDING WORKSHOP FABRICATION AND IN FIELD SUPPORT OPTIONS FOR FABRICATION AND REMOTE WELDING NEEDS

Empire Welding provides project management, specialised maintenance, and off-site fabrication and repairs services tailored to the oil and gas, minerals, and civil sectors in Australia. Supported by dedicated on-site fabrication services and attentive support, we ensure each project receives the necessary attention. From field services to welding procedures and structural and piping fabrication, Empire Welding covers it all.

PIPE FABRICATION/ CODED EXOTIC WELDING

Empire Welding specialises in pipe fabrication with a proven track record of delivering top-quality services. Our team of skilled and certified pipe welders is equipped to handle a variety of piping projects, ensuring timely completion and adherence to the highest industry standards.

- Carbon steel piping
- Stainless steel piping
- Duplex / super duplex piping
- Titanium piping
- Copper nickel piping
- Pressure piping / boiler tubes
- HDPE piping
- Rubber lined spools
- Ceramic lined spools
- Aluminium fabrication and welding
- Manifolds and headers

STRUCTURAL STEEL FABRICATION AND SPECIALISED MINING EQUIPMENT

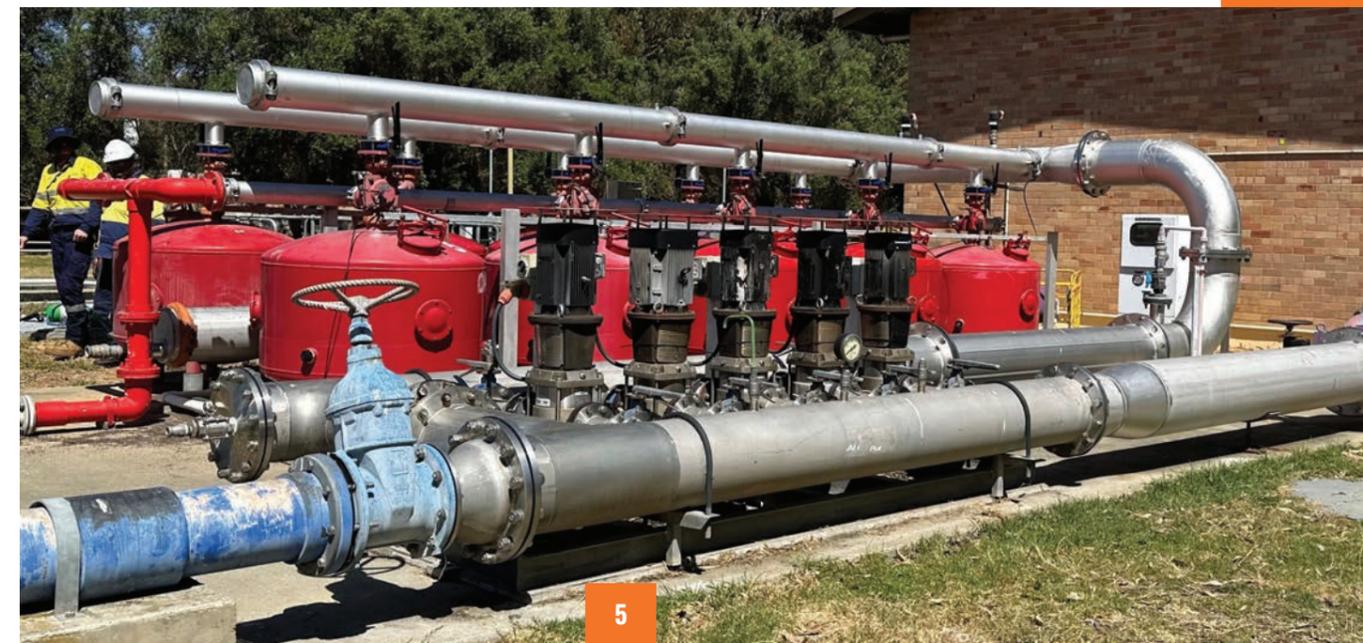

We specialise in structural steel fabrication and specialised mining equipment services. We provide comprehensive solutions for the mining industry, including new construction projects and repair works.

- Structural steelwork
- Handrails and platforms
- Pipe supports
- Pipe bridges
- Pipe trusses
- Conveyor trusses
- Dual level conveyors
- OLC conveyors
- Modular assembly
- Mechanical and machining capabilities
- Complete fit out

PLATE AND CHUTE FABRICATION / ROTABLE ITEMS

With state-of-the-art equipment, experienced personnel, and a track record of delivering large and complex projects within tight deadlines, Empire Welding has the capability to provide high-quality plate fabrication solutions for your specific needs.

- Chutes
- Hoppers
- Modular fabrication
- Wear liners (supply / fit out)
- Custom wear products
- Liner package supply
- Dua plate
- Q+T plate
- Stud welding
- Grizzly cassette fabrication
- Rom beam fabrication
- Impact plate fabrication
- Repairs and refurbishment
- Maintenance wear packages
- Trial fit / assembly

MOBILE WELDING

Minimise downtime with Empire Welding's on-site mobile welding services. Our field service personnel and fully equipped welding trucks are available 24/7 throughout Western Australia.

- On-site welding for repairs and fabrication
- Heavy earth moving repairs and pipe welding scopes
- Specialised tooling for diverse requirements

HDPE / POLY WELDING

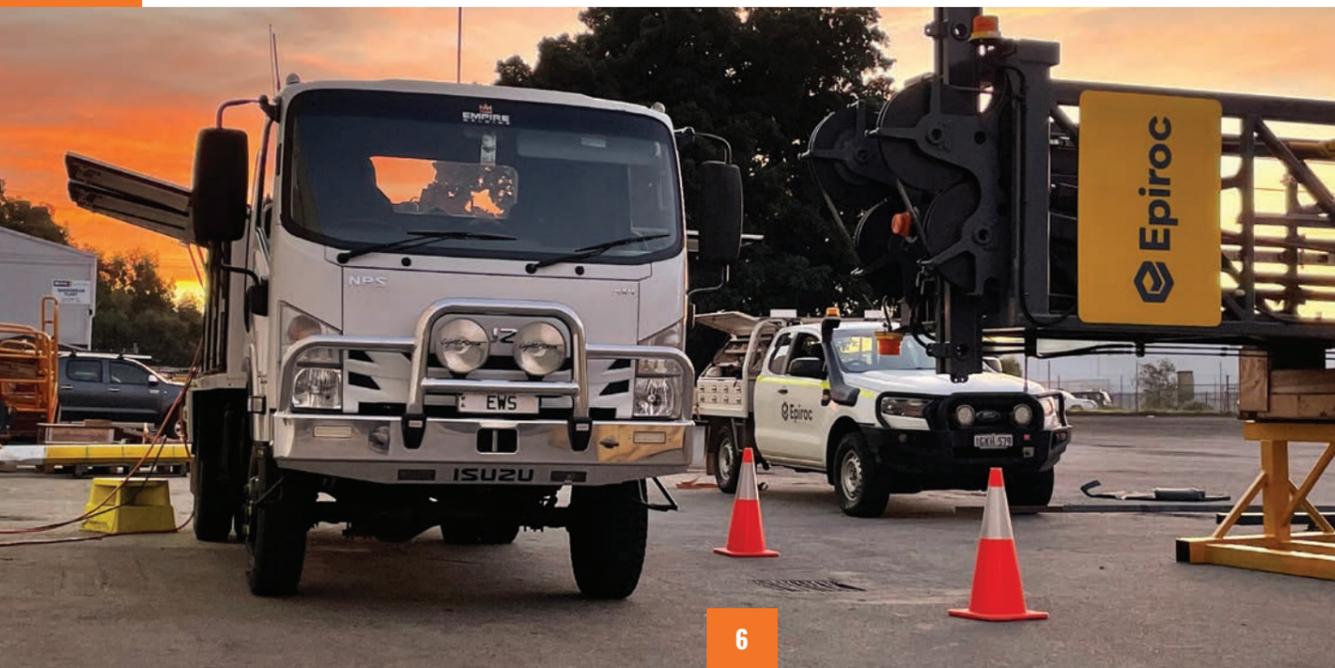

As a reputable provider of HDPE/poly welding services, specialising in on-site and off-site poly piping solutions, Empire Welding has the expertise and resources to deliver high-quality solutions tailored to your specific requirements. With a dedicated team and cutting-edge equipment, we are equipped to handle any project with precision and efficiency.

- Fusion and extrusion welding
- Site installation
- Equipment hire
- Custom fabrication
- Repair and maintenance
- Piping and fitting supply
- Pipe and fitting supply

OFF-SITE SERVICES

Empire Welding's workshop premises is based in Cannington. With our fully equipped office and fabrication facility, we are prepared to take on projects of any size and complexity – no project is too big or complex for us to handle.

- Procurement
- Project management
- Labour hire
- Shut down labour services
- Maintenance planning
- Welding equipment hire
- Pipe cutting and bevelling equipment hire
- Design
- Drafting
- Laser cutting
- Surface treatment
- Rubber lining
- Ceramic lining
- Transport
- Expediting

SAFETY COMES FIRST

WE ARE DEEPLY COMMITTED TO FOSTERING A CULTURE THAT VALUES OUR PEOPLE AND EMPHASISES CONTINUOUS IMPROVEMENT

At Empire Welding, the safety and well-being of our team are our topmost priority. With a focus on training, innovation, and robust support systems, we ensure that every member of our organisation operates in a safe and secure environment.

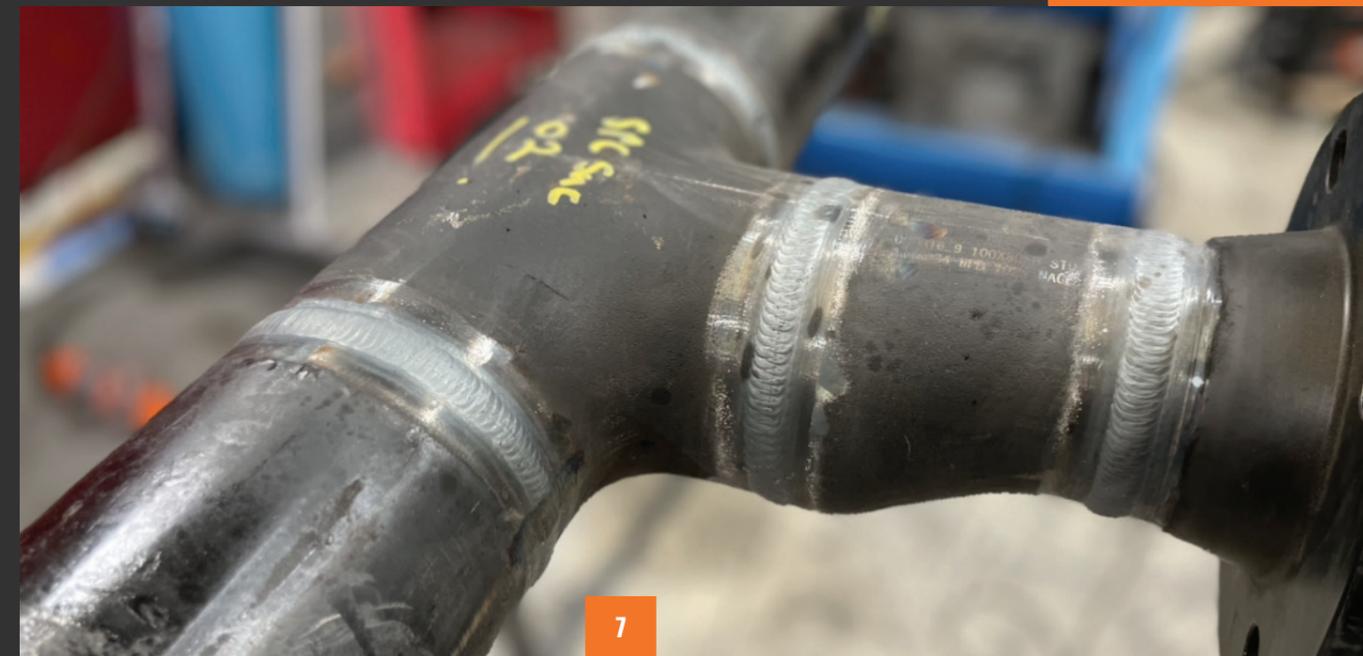

STRINGENT SAFETY SYSTEMS

Our risk management adheres to the requirements of ISO 9001 and complies with AS4801/OHSAS 18001. Moreover, we have streamlined induction procedures across all sites, including Tagging and Isolation Procedures, Hazard and Job Hazard Analysis (JHA), Take 5s, and Hazard Identification. Our team is currently in the process of achieving ISO9001 Accreditation.

Our comprehensive Health and Safety policy ensures a secure work environment, prioritising the well-being of our employees, contractors, customers, and the communities associated with our operations.

We believe in the safety of all of our staff and contractors. The health, safety and well-being of each and every one of our employees, contractors and associates is our responsibility and our highest priority.

We have a strong commitment to Zero Harm through our culture, our operational excellence and our managerial strategy. We focus on the health and safety objectives that are fundamental for daily operation. We proactively take responsibility for our safety, we consistently monitor our landscape and we will follow all site procedures where required.

ENVIRONMENTAL AND SUSTAINABILITY

WE TAKE INTO CONSIDERATION ALL OPPORTUNITIES AND RISKS WITH EACH NEW PROJECT, AND TAKE POSITIVE ACTION TO BENEFIT ALL STAKEHOLDERS

CONNECTION TO COUNTRY

Empire Welding's journey for over a decade is intrinsically tied to a deep connection to the environment and the communities we serve.

CARBON NEUTRALITY

In our pursuit of excellence, we are committed to carbon neutrality. Empire Welding actively pursues a net-zero transition pathway as we expand our capabilities and service offerings across Australia and First Nation communities globally.

ENVIRONMENT

Empire Welding has a serious commitment to the environment. We strive to select recycled materials and eco-friendly energy resources where possible. We will strive to minimise our environmental pollution and be 100% in compliance with appropriate environmental legislation and environmental policy as a contractor. All our operations and business practices will be grounded in sustainability principles to ensure the future of our great country.

QUALITY

Upholding a rigorous Quality policy, Empire Welding continually strives for excellence in our fabrication output, aiming to exceed client expectations in quality, service, and cost.

GOVERNANCE

Leadership Excellence: Strong leadership and supportive management form the cornerstone of our success. Our team promotes best practices across all facets of our business.

Systems and Policies: Empire Welding's systems and policies provide a robust framework for setting health, safety, environmental, and quality objectives. Our goal is to be the contractor of choice, consistently exceeding client expectations.

EQUAL EMPLOYMENT

Empire Welding values diversity and inclusivity, promoting a workplace where every individual is treated with respect and given equal opportunities.

FITNESS FOR WORK

At Empire Welding, we actively promote healthy lifestyles through various initiatives and wellness programs, available to all staff. Our Fitness for Work policy ensures that our team is fit and capable, contributing to a productive and safe work environment.

We firmly believe that the health and wellbeing of our team are essential for their performance, safety, and dedication. Join us at Empire Welding and experience a workplace where safety is our shared commitment and our people's health is at the core of everything we do. Together, let's build a thriving, secure, and supportive environment for all.

CODE OF CONDUCT

Upholding the highest ethical standards, our Code of Conduct guides every aspect of our business operations, promoting integrity and responsible conduct. At Empire Welding, our ESG practices extend beyond compliance; they represent our commitment to sustainable, socially responsible, and ethically sound business operations. We look forward to building a future that aligns with the highest standards, benefiting our community, employees, and the environment.

INNOVATION AND CULTURE

Our success in maintaining a safe workplace is driven by management commitment, accountability, and a culture that promotes awareness and open communication. We diligently identify and address project risks while providing thorough training to all our employees. Our cutting-edge software aids in compliance and reporting, enabling us to continuously analyze and evaluate trends for further improvement.

ZERO HARM WORKPLACE

We hold ourselves to the highest standards in Occupational Health and Safety. Our unwavering belief is that all injuries are preventable, and if a task cannot be performed safely, we don't perform it at all. We continually review our work environment, equipment, and methods to enhance health and safety measures.

RESPECT TO TRADITIONAL OWNERS

Empire Welding acknowledges and pays respect to the past, present and future Traditional Custodians and Elders of this nation and the continuation of cultural, spiritual and educational practices of Aboriginal and Torres Strait Islander peoples.

TESTIMONIALS

SEE WHAT OUR CLIENTS SAY

Empire Welding have been a vital part of the Metronet (CPB/Downers JV) Project. Ben and his team have been involved with design, fabrication and construction of one of the critical path items for the TCL (Thornlie to Cockburn line) from start to finish, and construction of the BP KWOL Bridge trusses along with other items over the past 12 months.

Empire Welding have a number of options from onsite welding with a full experienced team, or detailed works with highly experienced welders and boilermakers.

When it comes to safety, Empire Welding works with our team to review, test and trial the plan over and over again until we are all comfortable we have eliminated the potential for harm to our workforce before we start out in the field. Construction milestones are always met and any issues are raised before they arise. Always great work Ben and Empire Welding.

Dino Edwards
SENIOR CONSTRUCTION SUPERINTENDENT - CPB CONTRACTORS

Ben and his team at Empire Welding provided excellent quality work, in a short period of time for a pressure job. The whole process from quoting to delivery was seamless and fully supported by a comprehensive, quality MDR - I highly recommend Empire Welding as they have a true 360° view of the service they provide.

Tony Frunks
